Growing Bean

Adobe Captivate 3

By the end of this course you will be able to create interactive demonstrations for both soft skills and IT products.

What will I learn?

- You will be able to correctly set the recording options most suited to your project
- You will be able to record your movements on the screen and use the recording as a starting point for your projects
- You will be able to work with text captions and the timeline to make your project look good
- You will be able to correctly use images and rollovers to enhance your project
- You will be able to correctly use branching to add several different scenarios to your projects
- You will be able to use question and quiz slides to test your learners
- You will be able to correctly publish your project for the intranet or CD

What do I need to bring?

A basic understanding of Windows and an idea of the types of projects you wish to create.

What is the cost?

This is a two-day classroom based course that costs £550 including lunch and a manual to keep.
